### WELCOME COFFEE AND REGISTRATION

*All workshop events are being held at the Hôtel national des Invalides (Invalides national monument).*

The Invalides—one of France’s great national monuments—was founded by King Louis XIV, known as the “Sun King.” It was built in 1679 by Libéral Bruant and Jules Hardouin-Mansart, one of the principal architects of Versailles.

The Invalides also houses the tomb of Napoleon Bonaparte.

In addition to being one of Paris’ major attractions and containing several museums dedicated to France’s military history, the Invalides complex also serves as the headquarters of ANSSI, France’s main cyber security body, and as the residence of several high state officials.
